An innovative range of aluminium doors  
that perform as perfectly as they look

welcome  
home

## Transform your home with our beautiful aluminium doors.

Sleek, stylish and built to last, aluminium doors are the perfect way to accentuate and add value to your home. The attractive aluminium frames and high performance glazing maximise the flow of natural light, giving picture perfect views and easy access to your outside space as well as creating bright and airy interiors.

Unlock the potential of your home with aluminium doors that have been designed to perform as well as they look.

# solutions to suit your style

**For more than a quarter of a century we have been at the forefront of the design and development of high performance aluminium glazing systems.**

Today we offer a flexible range of products that are ideally suited to meet the demands of both traditional and new-build homes. Naturally strong and easy to maintain, it's easy to see why aluminium doors are a popular choice and a smart investment. Offering exceptional durability which outperforms traditional timber systems and providing a sleeker, more attractive finish than PVC-U, all of our aluminium doors and windows are manufactured here in

the UK to meet the highest safety and security standards. They are also fully recyclable and energy-efficient so can help reduce your carbon footprint and heating bills too.

The strength of aluminium allows our doors to support much larger spans of glazing within a slim frame and this gives uninterrupted views and greater light diffusion to transform not only how your home looks, but how it feels.

*"Our motto is to 'give our customers what they want, when they want it', which is why you'll find our range of high quality doors and windows is fully supported by a trusted and reliable network of installers across the UK."*

**Mark Wadsworth, Managing Director**

products that  
perform

## Attractive designs combined with exceptional performance

Our stylish aluminium doors have been carefully developed to improve your home in more ways than one. As well as offering excellent thermal and acoustic performance, they can help create living spaces that can be enjoyed all year round.

- Save money on your heating bills
- Help reduce external noise pollution
- Future-proof your home by improving its energy-efficiency
- Enjoy cosy and peaceful interiors whatever the weather

# security built in

**Your home is your sanctuary from the outside world and we understand the importance of feeling safe and secure.**

That's why we have put security front and centre to create a door range that offers complete peace of mind. With our aluminium doors you can enjoy the flexibility of open plan living with the reassurance of top quality security features.

Our aluminium doors are strong and hardwearing and more importantly, reliably secure. All our doors and hardware have been designed to offer protection from intruders and meet the latest

security regulations, including the requirements of PAS 24:2016, approved document Q of the Building Regulations and Secured by Design. This gives our customers the reassurance of knowing that all of our doors have been independently checked, tested and certified.

With security features you can depend on, our aluminium doors are available with a choice of handles and locking systems to meet your individual needs and to ensure that safety always comes first.

as individual  
as you

**Whatever your style,  
we can offer a wide  
selection of door  
furniture and colour  
options to provide  
the perfect match**

Whether you want to match to an existing décor scheme or try something new, all of our aluminium doors can be personalised to your exact tastes.

Our doors are available in a variety of styles and an almost unlimited choice of colours, making them ideally suited to properties of any size.

the PURE<sup>®</sup>  
difference

Sustainable and built to last, with a life expectancy of up to 40 years.

Double or triple glazing options available, up to 50mm, to maximise thermal and acoustic performance.

Benefiting from a thermal barrier made from expanded polyurethane, tried and tested and used in the construction industry for many years.

**PURe**<sup>®</sup>  
DOOR SYSTEMS

**The PURe<sup>®</sup> range takes our already high-performance aluminium doors to the next level, offering even greater energy-efficiency and protection from the elements.**

The cutting-edge patented system is the first on the UK market to benefit from an enhanced thermal barrier manufactured from expanded polyurethane foam (PUR). This material has long been used within the construction industry, traditionally in insulation products, because it is so effective in helping to retain heat. When used within our aluminium door systems it can help to keep your home comfortable all year long.

So if you're looking for a hassle-free and cost-effective way of creating a warm and cosy interior whilst reducing your heating costs, the energy-efficient PURe<sup>®</sup> range offers the ideal solution. What's more, all PURe<sup>®</sup> aluminium doors have been designed to last for up to 40 years, making them excellent value for money and a great long-term investment for you and your home.

open the door  
to quality

**Timelessly stylish, our attractive aluminium doors will provide years of enjoyment and trouble-free performance**

# folding and sliding doors

We have styles to suit any space or budget, from the traditional elegance of single or double 'French doors' to the popular bi-folding or folding sliding styles that provide seamless access to the garden.

Maximum aperture height of up to 2700mm high and individual door leaves up to 1300mm wide

Further thermal enhancement available for added energy savings

Leaf weights up to 125kg

High tech roller design ensures years of trouble-free operation

High quality weather seals to prevent draughts, heat loss and external noise

40+ years life expectancy

Single Door  
Open out or open in

**Double Door**

*Open out or open in*

**Folding Sliding Door**

*Open out or open in*

**PURe**<sup>®</sup>  
DOOR SYSTEMS

Enhanced performance option. The PURe<sup>®</sup> door range features patented technology to provide even greater thermal and weather performance. For more information please see pages 12-13.

# sliding doors

A modern and stylish alternative to a traditional patio door, sliding doors are ideal for maximising the sense of light and space in a home and are precision engineered to effortlessly glide open.

Individual door leaves are available up to 3000mm wide and 3000mm high

Further thermal enhancement available for added energy savings

Leaf weights up to 300kg

High tech roller design ensures years of trouble-free operation

High quality weather seals to prevent draughts, heat loss and external noise

40+ years life expectancy

## Sliding Door

*Perfect as a residential patio door*

**PURe**<sup>®</sup>  
DOOR SYSTEMS

**Double Track**  
*Practical yet stylish*

Our classic double-track sliding doors offer a 50% opening aperture to provide access, ventilation and natural light all year round.

**Triple Track**  
*Stunning wide views*

Offering a larger opening aperture of 66%, our triple-track option enables all three door panels to slide to achieve wider views and beautiful full length sliding glass walls.

**Slide:** Available as a double or triple-track system, our range of aluminium sliding doors has been designed to be easy to use and maintain. Our traditional sliding doors sit directly on the rollers and can be easily opened by using the handle to pull the door along its track.

**Lift and Slide:** For larger doors panels that are heavier, our Lift/Slide option provides the perfect solution. Here, the door sits directly on the track and the handle is used to 'lift' the door up onto the rollers so it can gently slide open.

# size overview

## Ali Fold : Overall Frame Width

Recommended minimum - maximum

Aperture (m)

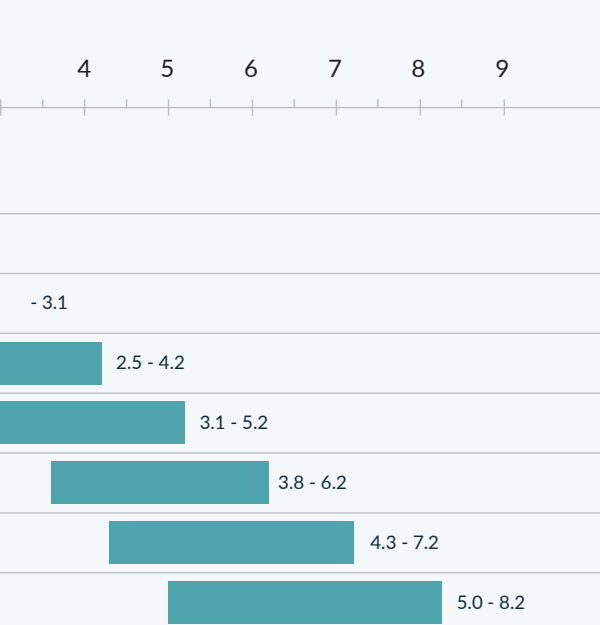

Your home is as unique as you are, which is why we offer a bespoke solution and a flexible range of door sizes.

### Ali Fold HD: Overall Frame Width

Recommended minimum - maximum

Aperture (m)

*\*Measurements shown are approximate. Please see table below for more accurate details.*

Our handy sizing matrix\* can help you choose the most effective combination of door widths and number of leaves to suit your space and, as all doors can be made to measure, you can be sure to find your perfect fit. With a range of options for small to medium sized spaces, there is also the Ali FOLD HD option for when you want to go big and bold.

#### Overall frame width (mm)

Number of leaves	Overall frame width (mm)		
	Minimum	Max Ali Fold	Max Ali Fold HD
1	730	1130	1430
2	1360	2162	2762
3	1952	3194	4094
4	2582	4235	5435
5	3174	5216	6716
6	3804	6257	8057
7	4396	7238	9338
8	5026	8279	10679

#### Overall frame height (mm)

Overall frame height (mm)	
Minimum	2014
Max Ali Fold	2700
Max Ali Fold HD	2484

**Grey**  
7016

## Standard Colours

Choose from three stock standard RAL colours. If you have a specific colour in mind, we can colour match\* for a bespoke solution.

## Dual Colours

You can even choose to have dual\* colour, with different colours on the exterior and interior surfaces, and specify a metallic, textured or anodised finish.

## Signature Colours

To help you decide on your perfect design our exclusive Signature Collection brings together the most popular and on-trend colours and powder-coated paint finishes. From classic neutral tones to more vibrant shades, our inspirational palette has something for everyone.

The image is a collage of four photographs. The top-left photo shows a close-up of a white architectural element. The top-right photo shows a blurred outdoor scene with trees. The bottom-left photo shows a wooden chair leg on a light-colored wooden floor. The bottom-right photo is a large, clear view through a dark-framed window, showing a wooden floor inside and a patio with a wicker chair and a metal planter outside. A teal text box is overlaid on the top-left and top-right photos.
