

# New Vuelta Flush Sash

The first Vuelta by Visage Flush Sash windows have created a real buzz of excitement amongst those who've seen them.

The new Vuelta Flush Sash window is the first of its kind. It offers slim frames in 14 standard colours and authentic timber-look joints, combined with the practicality of a fully-welded PVCu window. Shepley worked directly with machinery specialists to design an all new window that looks just like wood, without compromising on performance.

Before designing Vuelta Flush Sash, we talked with customers to find out what problems they had experienced when selling and fitting other flush sash windows. This invaluable information meant that we could design these issues out of Vuelta Flush Sash.

The unique new jointing and welding process produces a perfect replica of a timber joint without compromising thermal efficiency or strength.

Take a look inside for more about Vuelta by Visage Flush Sash Windows.

# New Vuelta by Visage Flush Sash Window

## Quality is in the weld detail

It's taken almost a year to develop Visage Flush Sash and it started with a completely new machine to create the perfect timber-look weld.

The unique new jointing and welding process produces the external character of a perfect timber joint without compromising performance.

The precision weld is strong, thermally efficient and has no risk of air leakage.

## Q-Lon outer seal

The Visage Flush Sash window features a neat Q-Lon outer seal between the sash and outerframe.

Q-Lon compresses easily to fill the gap and then returns to its original shape when the sash is opened. This removes the need for an unsightly brush seal.

## Designer handles

Our range of designer handles offer a high-quality look and feel. There's a choice of finishes and a heritage range with matching dummy pegs and stays.

## Colours

We think you'll like the collection of 14 standard colour options. These feature the latest trending shades and classic favourites.

The collection includes Agate Grey and natural wood stain finishes.

## Smooth Anthracite Grey

Perfect for contemporary or modern properties.

## Colour matched Georgian Bars

Available in all 14 colours.
